

- **Fats.** Dairy products such as milk, cheese, butter, and used oil or grease. Grease solidifies when it gets cold and will adhere to pipes.
- **Cotton Swabs** do not dissolve. They clump together and cause blockages in the system.
- **Paper towels.** These are also clogging culprits. They do not dissolve and will clog your pipes.
- **Dental Floss.** Acts as a net catching other objects and debris in the flow.
- **Tissues.** Though they are similar, toilet paper and tissues are not the same. Tissues do not dissolve in water.
- **Face masks, feminine products, and condoms.** These items will not flush and will cause drain and sewer system blockages.
